DANA LEWIS PHOTOGRAPHY
WEDDING EXPERIENCE GUIDE

Relaxed, natural wedding photography capturing real moments
across Shropshire, Staffordshire and the West Midlands.

Hi, I'm Dana,
It's lovely to meet you.

First of all, thank you for considering me to photograph your wedding.

Choosing your photographer is one of the most important decisions you'll make while planning your wedding, and I'm genuinely honoured you're here.

My approach to wedding photography is relaxed, natural, and focused on capturing real moments as they unfold. I believe the best photographs come when couples feel comfortable, present, and able to fully enjoy their day.

Over the years I've photographed weddings across Shropshire, the West Midlands and beyond, documenting everything from intimate countryside ceremonies to larger celebrations in beautiful historic venues.

This guide will walk you through how I approach weddings, what it's like to work together, and how I help couples feel relaxed in front of the camera.

Your wedding day will pass incredibly quickly, but the moments within it are what stay with you for a lifetime.

xoxo
Dana

MY APPROACH

Every wedding is different, but my goal is always the same: to capture the story of your day naturally and beautifully.

Rather than constantly directing or interrupting moments, I take a documentary-style approach for most of the day.

This allows genuine emotions and interactions to unfold naturally.

Of course, there are moments where gentle guidance helps, particularly during couple portraits and family photos.

But even then, the focus is on keeping things relaxed and enjoyable.

WHAT MAKES MY APPROACH DIFFERENT

Every photographer works differently, and choosing someone you feel comfortable with makes a huge difference on your wedding day.

My approach focuses on creating an experience where you can simply enjoy the day while I quietly document the moments as they unfold.

Couples often tell me they choose me because:

- A relaxed documentary approach with very little posing
- Help creating a timeline so the day flows naturally
- Blending in with guests so moments feel genuine
- Gentle guidance when needed while keeping things natural
- A focus on capturing the emotion, atmosphere and story of the day

even realise were happening.”*

THE MOMENTS I CAPTURE ON YOUR WEDDING DAY

MORNING PREPARATIONS

The anticipation, the final touches, and the quiet moments with the people closest to you.

THE CEREMONY

The promises you share, the emotions in the room, and the moment everything changes.

TIME TOGETHER

Relaxed couple portraits where you can step away for a few minutes and simply be together.

SPEECHES AND CELEBRATIONS

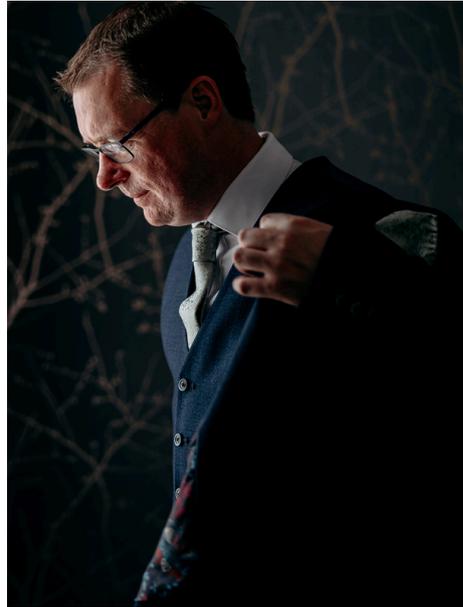

The stories, laughter, tears, and reactions that often become some of the most memorable moments of the day.

EVENING CELEBRATIONS

The energy, dancing, and the moments you may not even realise are happening.

THE DETAILS

The small touches and thoughtful elements that make your day uniquely yours.

Every wedding is different, but the moments that matter most are always the same.

THE EXPERIENCE

From the moment you enquire to the delivery of your final gallery, my goal is to make the entire experience feel relaxed, natural, and genuinely enjoyable.

Many couples tell me they forget the camera is even there. That's exactly how it should feel.

By the time you receive your photographs, my hope is that looking through them feels like stepping back into your wedding day, every laugh, every tear, every quiet moment.

To give each couple my full attention, I only take on a limited number of weddings each year and many dates book well in advance.

KIND WORDS

Choosing your wedding photographer is a big decision, so hearing from couples I've worked with often says more than I ever could.

"Dana is not only an incredible photographer, but one of the kindest people we've ever met. From the moment we met her, we knew we were in the best hands.

Our photographs are more beautiful than we ever imagined. Every image captures the emotion and atmosphere of the day perfectly.

Choosing Dana was one of the best decisions we made for our wedding."

— Dan & Rach

"From the very first meeting, we knew we had found someone truly special. Dana made us feel instantly comfortable and took the time to really get to know us not just as clients, but as Chloe and James.

On our wedding day she blended so naturally with us and our guests, capturing the most beautiful, emotional moments without ever making anything feel staged or forced. When we received our wedding film we were completely overwhelmed.

Dana didn't just document the day, she told our story."

— Chloe & James

"If you're looking for someone to capture your wedding photography and videography, Dana is first class.

She always goes above and beyond for her couples and we couldn't thank her enough. We loved our whole experience."

FAQS

Planning a wedding naturally comes with lots of questions. Here are a few of the things couples often ask before booking.

We're a little nervous about being in front of the camera, is that normal?

Absolutely. Almost every couple says this before their wedding day. My approach is relaxed and natural, with very little posing. Most of the time I'm simply capturing real moments as they happen so you can enjoy the day without feeling like you're constantly being photographed.

How many photos will we receive?

For a full day wedding, most couples receive 600+ carefully edited images that tell the story of the day. Every photograph is selected and edited to reflect the natural colours and atmosphere of your wedding.

When will we receive our photos?

Your gallery will be delivered once your images have been carefully edited and prepared. I take the time to ensure every photograph reflects the colours, atmosphere and emotion of your wedding day. You'll receive access to a private online gallery where you can easily view, download and share your images with family and friends.

Do you help with the wedding timeline?

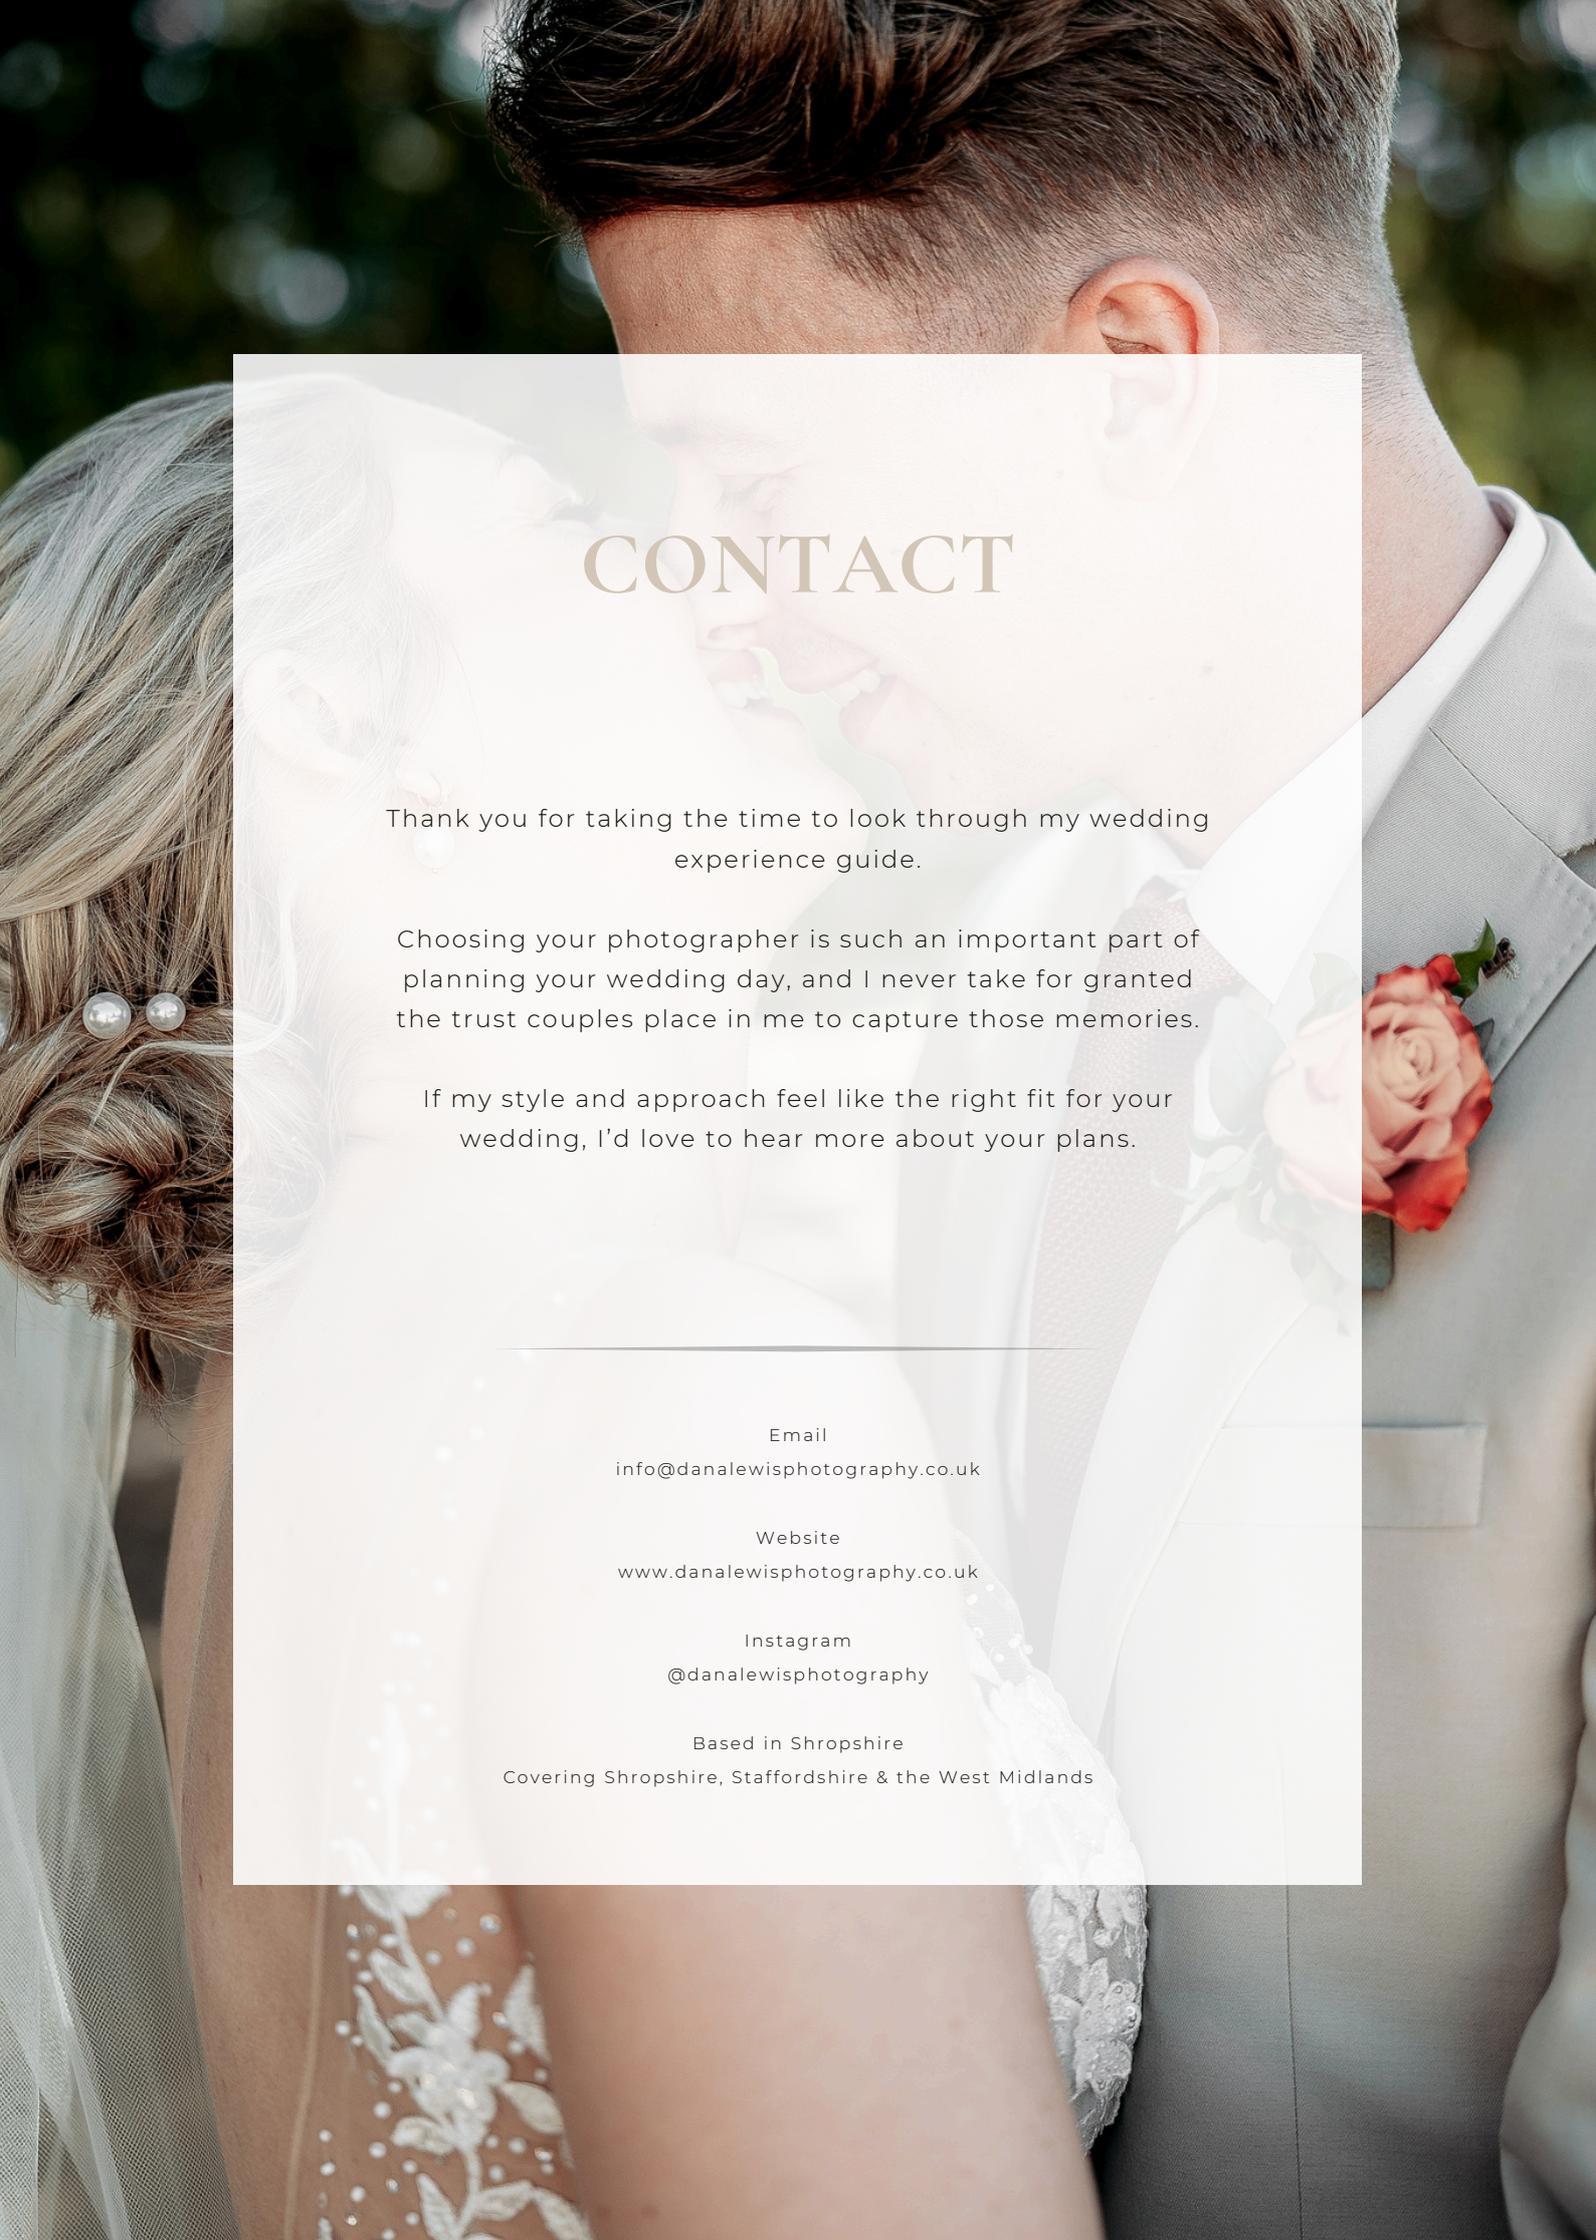

Yes, many couples find this incredibly helpful. I'm always happy to suggest timings that allow the day to flow naturally while still leaving plenty of time for photographs.

What happens if it rains on our wedding day?

Rain is very common at UK weddings and rarely causes any problems. I always come prepared with ideas and locations so we can still create beautiful photographs whatever the weather.

Will you help us feel comfortable in front of the camera?

Most couples tell me they feel a little nervous about being photographed, and that's completely normal. My approach is relaxed and natural, with gentle guidance when needed so you can simply enjoy the day together.
